## BRECON MARKET REPORT – PRIS Y FARCHNAD DYDD MAWRTH - TUESDAY 15<sup>th</sup> OCTOBER 2019.

### 600 LAMBS

A much better entry on the week in terms of number and quality. This enabled all buyers present to get started and resulted in a brighter and more competitive trade. It is again reiterated that this number forward is again nowhere near the volume required on the day for the buyer attendance. We remind vendors that we have worked hard to maintain buyer support for all categories of lambs and the previous lack of Vendor support is disappointing. We hope to build on this number consigned every week going forward. The trade was similar to the previous week and again well ahead of other local competing centres at the end of last week. The best lambs sold to £2.00ppk and £94 from M/s Jones, Tyisaf. The handy weight and better quality heavy lambs were a real trade and a marked premium and It is again reiterated that improved Abattoir customer support has been pledged to Brecon Market going forward and the next few weeks are an important time for the prime lamb section to be further enhanced. We cannot stress the importance of the need for improved lamb entries in the coming weeks.

### **310 CULL SHEEP**

A better entry of cull sheep in terms of numbers and again a quality show of ewes. The trade was similar to the faster trade of last week and again well ahead of other competing centres. There were some tremendous pedigree and pure ewes and these sold to the top trade of the day. The well meated hill ewes also sold to a solid enough trade in line with last week and the trade for mule ewes was much improved. Again there were Farmer buyers present looking for ewes to graze and these were sold to a similar fast trade as the last three weeks. We are short every week of ewes of all categories and a lot more are needed to meet demand. Much larger entries of well covered and plain ewes are required in the ensuing weeks.

**Overall average Ewes £55.**
