

BRECON MARKET REPORT – PRIS Y FARCHNAD DYDD MAWRTH - TUESDAY 29th OCTOBER 2019

520 LAMBS

A similar entry on the week in terms of number and quality. The trade was again sharper as predicted yesterday with lambs of all types sold to a faster trade. We are trying to grow the section in terms of numbers to meet demand and it is again reiterated that this number forward is again nowhere near the volume required on the day for the buyer attendance. We remind vendors that we have worked hard to maintain buyer support for all categories of lambs and the continuing lack of Vendor support is disappointing. We hope to build on this number consigned every week going forward. The best lambs sold to £2ppk from Davies Hoelinon Fawr and Jones Tyisaf. The small lambs were again a better trade and the very best lambs were a marked premium.

220 CULL SHEEP

A slightly better entry of cull sheep with numbers again less than that required and again surprising considering the unrivalled and consistent trades over the last few weeks. The trade was similar to the faster trade of the last two weeks; again well ahead of other competing centres. There were some strong ewes and these sold to the top trade of the day. The well meated hill ewes also sold to a solid enough trade in line with last week and the trade for mule ewes was again much improved. There were virtually no grazing ewes forward this week. We are short every week of ewes of all categories and a lot more are needed to meet demand. Much larger entries of well covered and plain ewes are required in the ensuing weeks.

Overall average Ewes £67.
