There was a smaller commercial entry following the large entry of last week. There was again a high proportion of overweight lambs which helped the average per head with the trade per kilo on the fast trade of last week. This trade was however improved on that predicted yesterday with the effect of the disturbance caused by the French national strike waring off. Please note the Christmas fixture list for prime and cull sheep below.

325 CULL SHEEP

The results in the best class of cull sheep section were as follows.

| | | | |
|-----------------|-------------------------------|------|-----------------|
| 1 st | DAO Thomas, Gwarllwyn | £135 | Pac Mecca Meats |
| 2 nd | DIL&E Jones, Llaniltyd | £121 | Pac Mecca Meats |
| 3 rd | GG & CB Morris, Lower Drostre | £96 | Pac Mecca Meats |

A much better entry of cull sheep on the week with numbers more like that required on a weekly basis. The trade was as solid as last week and again well ahead of other competing centres. There were again some cracking pedigree ewes forward and these sold to the top trade of the day. We are short every week of ewes of all categories and a lot more are needed to meet demand. Much larger entries of well covered and plain ewes are required in the ensuing weeks.

Overall average Ewes £70
