BRECON MARKET REPORT – PRIS Y FARCHNAD
DYDD MAWRTH - TUESDAY 17th DECEMBER 2019

700 LAMBS

There was a smaller entry following the large entry of last week's Christmas fatstock. There was a more consistent show of handy weight lambs which helped the average per kilo to produce the fastest trade in weeks. This trade was improved on that predicted yesterday with the effect of the New Prime Minister intimating changing the Brexit legislation to ensure a deal on exit from Europe being implemented prior to the end of December 2020. This illustrates better the positive effect of high finance and supply and demand on the lamb trade and the instantaneous positive effect created by The Live marketing System. Please note the Christmas fixture list for prime and cull sheep below.

300 CULL SHEEP

A slightly smaller entry of cull sheep on the week and a blistering trade. The returns were solid as predicted and again well ahead of other competing centres. There were some cracking ewes forward with all classes sold to advantage. We are short every week of ewes of all categories and a lot more are needed to meet demand. Much larger entries of well covered and plain ewes are required in the ensuing weeks.

Overall average Ewes £70
