**BRECON MARKET REPORT – PRIS Y FARCHNAD
DYDD LLUN - MONDAY 23rd DECEMBER 2019**

1550 LAMBS

A tremendous pre-holiday show of lambs to meet demand created by the weakening of sterling against the euro. There was again a more consistent show of handy weight lambs which helped the average per kilo to produce a blistering trade. This trade was again improved on that predicted yesterday. This again illustrated the positive effect of high finance and supply and demand on the lamb trade and the instantaneous positive effect created by The Live marketing System. Please note the New Years Eve date as normal.

160 CULL SHEEP

A much smaller entry of cull sheep on the week and another blistering trade. The returns were solid as predicted and again well ahead of other competing centres. There were some cracking ewes forward with all classes sold to advantage. We are short every week of ewes of all categories and a lot more are needed to meet demand. Much larger entries of well covered and plain ewes are required in the ensuing weeks.

Overall average Ewes £86
