BRECON MARKET CATTLE REPORT FRIDAY 27th DECEMBER 2019

250 STORE CATTLE

A superb entry of quality cattle met with one of the best trades seen for 6 months, fuelled by a general shortage of cattle and purchasers are optimistic about the future.

Some cattle would have been £50-£80/head up on recent sales and farmers should be encouraged by the demand which still exists for feeding cattle and quality types.

The heifers were up £15/kg and averaged a staggering £1013/head although this did include several good strong heifers ideal for bulling which attracted considerable interest.

Messrs Joseph from the Lloyney offered a tremendous selection of 17 heifers which topped at £1230 and averaged £1115 (218p/kg) while a regular vendor Mr Morgan, Bronglyn also offered over 25 heifers which averaged an impressive £1100, topping at £1240. Many more heifers could have easily been sold on this excellent trade.

The steers were up to £1305 and we were desperately short of stronger types to average £1020/head and a much improved 207p/kg to include all types.

The beef trade has been difficult during 2019, however the future is bright and vendors of store cattle should take confidence from the fact quality will always sell and Brecon Market has a reputation for providing tremendous store cattle and we will always have a packed ring of buyers wanting your cattle.

However, MORE cattle are needed every month to maintain the support of buyers who attend from all parts of the UK.
