

With the COVID-19 situation developing all the time, Household Estate Agents have now re opened both offices with one person and we are able to carry out viewings and valuations using staff currently working from home on the basis that all parties involved follow strict safety procedures. Visits to the offices are by appointment only to pick up and drop off only. Please speak to our staff about the safety procedures that we have put in place to ensure the safety of our staff and of our customers whilst viewings and valuations are taking place.

The best contact details for the different departments are listed below. We understand this situation is very difficult for everyone and our primary objective is to ensure the safety of our staff and our clients. We will continue to follow all Government guidelines whilst doing our best to carry out the services that we know you rely on us for. We will post any further updates in this space on our website and we will be posting any developments on our facebook page.
