# Conditions of Sale for Farm and Factory Auctions

1. **Anybody selling, bidding or buying** at our sales is deemed to have read and understood these conditions and to agree to be bound by them. In these conditions “we” means Shouler & Son, auctioneers.

## Acceptance of Goods

2. We accept goods for sale subject to payment by the seller of the current scales of commission and charges, and subject to our condition of acceptance for private or trade goods printed on the relevant entry form.
3. If anybody brings to the sale premises any goods or animal which he could reasonably have known to be dangerous, he shall be liable for all injury or loss which we or anybody else may sustain as a result.

## Reserve Prices, Order of Sale and Bidding

4. We reserve the right on our own account and on behalf of the seller:-
  - a. to fix a reserve price
  - b. to accept or ignore bids made by the seller.
  - c. to bid on behalf of the seller.
  - d. to re-arrange, consolidate or withdraw any lots or vary the order of sale.
  - e. without giving any reason to refuse to accept bids of any person.
5.
  - a. The person making the highest accepted bid shall be the buyer, but should we inadvertently sell any lot under a reserve price duly notified to us, we may cancel the sale at any time up to one hour after the end of sale, or until the lot is paid for, whichever happens later.
  - b. We will not accept a maiden bid or advance for less than we state from time to time.
  - c. A bidder shall not retract his bid
6. If a dispute arises as to any bidding then at our discretion either:-
  - a. the lot to which the disputed bid relates shall immediately be put up again, or
  - b. we shall determine the dispute and our decision shall be final and binding on all parties
7. Buyers Premium (BP), Artists Resale Right (ARR), Value Added Tax (VAT)
  - a. The buyer must pay to us, such BP (if any) as is set out in the Catalogue or is announced at the outset of the Auction (together with VAT thereon) in addition to the hammer price
  - b. The buyer must pay any ARR in addition to the hammer price
  - c. Unless announced, VAT is payable on the goods in addition to the hammer price.
  - d. The hammer price means the price at which the lot is knocked down to the buyer.
  - e. All references to purchase price elsewhere in these conditions are deemed to include any BP, ARR and VAT.
8. **Payment for and Removal of Lots**
  - a. All lots must be paid for on the day of sale and must be removed not later than the date prescribed in the Catalogue or announced at the outset of the auction. Cash payments are subject to money-laundering regulations. Debit card facilities will normally be available. Credit cards will NOT be accepted.

9. In the event of any lots not being paid for on the day of sale or removed within the time allowed we may at our discretion:
  - a. charge interest to the purchaser at 5% above the current HSBC base rate
  - b. charge for removal and storage of goods. Both are subject to £50 plus VAT per item per week.
  - c. rescind the sale and recall such lots, any loss or expense being recoverable from the original buyer.
10. The risk in each lot shall pass to the buyer at the fall of the hammer, but the ownership of each lot shall remain vested with the seller until the lot is paid for.
11. We may stop the buyer removing any lot until he has paid in full for every lot he has bought at the sale.
12. The buyer is responsible for any damage to any other lots or to the sale premises done in the removal of his lots, and shall either repair the same before removing his lots, or pay the estimated cost of doing so, fixed by us or the owner of the premises as appropriate.

### **Warranty**

In so far as the law allows neither we nor the sellers accept any liability for any loss or injury caused by the purchase of any lot. The buyer undertakes to take reasonably practical steps to ensure his purchase will be safe and suitable for use. Because of obsolescence and wear and tear, it is unlikely that goods, bought at auction, will be as safe and serviceable as new goods from shops or trade suppliers. The Seller is not a supplier within the meaning of Health & Safety Act 1974.

13. We do not claim any expert knowledge of the description, origin or fitness of any lot offered for sale. Where adverts, lot lists or catalogues are prepared, the descriptions are there to help the buyer to find lots in which he might be interested. All lots will be sold with all faults and errors of description, as seen at the time of sale, except that any electrical or mechanical goods announced to be In Working Order at the time of sale but found and notified to us as being faulty before noon on the day following the sale, may be returned by the buyer not later than 24 hours thereafter and the purchase price will be refunded.
14. The buyer ought to inspect the lots before he buys. If he buys without inspection he does so at his own risk. If in any case we display a sample, we give no warranty as to the condition or consistency of the rest of the lot. Machine hours are given in good faith as recorded when cataloguing, but are not guaranteed accurate.

### **Agents**

15. Anybody intending to bid shall inform us before the sale if he is going to bid as an agent and shall give us any information we reasonably require. Anybody who buys as an agent shall nevertheless be jointly and severally liable to us with their principal for the purchase price and only matter to do with the sale.

### **Site safety**

16. The sale site is a commercial environment not designed for attendance by the general public. Neither we nor the Sellers nor the site owners accept any liability for any accident or loss to any persons attending the sale.
